SPONSER A FAMILY SCHEME

Many a times some of our community members struggle to get income for food and other routine requirements due to death or some serious diseases of bread winner of the family.

In such situations other family members may not be in a situation to obtain any job due to lack of education or preparedness. During such situations family needs financial support for at least for one year to adjust the loss of income of the bread winner of the family and get them prepared to obtain some source to generate income to survive.

It is observed that many a times such situations are exploited by other **religions**, by giving financial and other support to get them out of the crises. This is one of the reasons for conversion to other religions from our community.

In order to support such families, it is proposed to introduce a scheme called ***Sponser a Family Scheme***.

Under this scheme the Association will approach willing members from our community to sponser such very very poor families by giving a fixed monthly support to survive till any of the family member get some job or source of income. Such support should be for only one year or till the family member get job or any other source of income. The amount to be given to the family will be according to the sponsorship received from members. The Managing Committee reserve the right to restrict maximum amount to be disbursed from the sponsorship received.

The sponsorship would be case to case basis only.

The recommendation for this scheme should be done by the zonal office bearers after visiting the family and on convincing of the situation only.
