Support a family scheme

We have well settled members with high income from Business or Good employment leading comparatively high standard of living.

We also have reasonably well settled members with both working couples with adequate income leading good standard of living.

We have another category of members with reasonable income with educated spouse supporting their family with tuitions, part time business, etc. contributing to family income.

We have another category of members with comparatively lesser income and whose spouse is lesser educated and hence unable to support their family financially.

Thus to support the fourth category of members we have introduced **Support a family scheme** for the members of the Association.

Under the **Support a family scheme** one **Designer Sewing machine** will be given to one member in a year.

Designer Sewing machine can be used for *fall beeding of sarees, button whole making, over locking, side stitching of cloths*, etc. with the on sight training given by the sewing machine company. Hence the user does not need to undergo formal sewing courses or other practical experience to use this machine.

The fall beeding of sarees, button whole making, over locking, side stitching of cloths, etc., work are outsourced by many tailors. Such outsourced work can be done by our members or their family members to earn additional income to support their family.

Method of selection.

The scheme will be operated on the following method:

1. Each zonal committee to identify and nominate 1 needy member family in every year from their zone for consideration under the scheme.
 - The nominating member should have a KVA membership.
 - The nominating members should be financially weak.
 - The spouse has no income generating side business.
 - The spouse should be able to utilize the designer sewing machine for earning income.
 - None of the family member should have been a beneficiary of the scheme earlier.
2. No nomination will be considered for the scheme from such zone which did not officially communicated the details of office bearers and committee to the Central Committee duly signed by the office bearers.
3. Nomination from the zone should reach the central office by 31st December every year duly signed by zonal Chairman and Secretary.
4. Central Committee by lucky draw system select one member from the zonal nominations for the scheme.
5. Central committee reserve the right to return the nomination for re consideration of the zonal committee.
6. The President of the Association on the recommendation of Managing Committee can nominate the beneficiary for extremely deserved cases.
